## Parallels of the Curses

*Research compiled by Mal'akYahu*

**Dany'al/Daniel 9:11** “And all Yasharal have transgressed Your Turah, and turned aside, so as not to obey Your voice. So the curse and the oath written in the Turah of M'sha the servant of Alahym have been poured out on us, for we have sinned against Him.

**Dany'al/Daniel** “And He has confirmed His words, which He spoke against us and against our rulers who judged us, by bringing upon us great evil. For under all the heavens there has not been done like what was done to Yarushalam.

**Dany'al/Daniel** “As it is written in the Turah of M'sha, all this evil has come upon us, and we have not entreated the face of אלהים our Alahym, to turn back from our crookednesses, and to study Your truth. (See also Husha/Hosea 4:6)

**YashaYahu /Isaiah 1:3** An ox knows its owner and a donkey its master's crib – Yasharal does not know, My people have not understood.” (*Yasharal's Identity Crisis*)

**YashaYahu /Isaiah 29:9** Pause and wonder! Blind yourselves and be blind! They are drunk, but not with wine; they stagger, but not with strong drink.

**YashaYahu /Isaiah 29:10** For אלהים has poured out on you the spirit of deep sleep, and has closed your eyes, the prophets. And He has covered your heads, the seers.

**YashaYahu /Isaiah 29:11** And the entire vision is to you like the words of a book that is sealed, which men give to one who knows books, saying, “Read this, please.” And he said, “I am unable, for it is sealed.”

**YashaYahu /Isaiah 29:12** And the book is given to one who does not know books, saying, “Read this, please.” And he said, “I have not known books.”

**YashaYahu /Isaiah 29:13** And אלהים says, “Because this people has drawn near with its mouth, and with its lips they have esteemed Me, and it has kept its heart far from Me, and their fear of Me has become a command of men that is taught!<sup>1</sup> Footnote: <sup>1</sup>Mt. 15:8-9, Mk. 7:6-7.

### **Where did the Hebrews go after the fall of the Temple in A.d. 70?**

70 CE: “General Vespasian and his son Caesar Titus fought against the Yahudym. Millions of Yahudym fled into Africa, among other places, fleeing from Roman Persecution and starvation during the siege” Josephus...

The Arab slavery started 1000 years before the European slave trade. The Muslims were the first to inform the Portuguese of the “people of the book” (this is a title that the Muslims gave the Yasharlytes of west and east Africa.

The Muslims said “they were living in great number to the south of the desert – a people cursed of “God” and predestines as slaves.” The Muslims also called the western Sudan (West Africa) “Yahooddee” which means “The Tribes of Yasharal”.

Conclusions drawn from HEBREWISMS OF WEST AFRICA

"These facts have peculiar significance when the presence of Judaism among American Negroes is to be considered. Hundreds of thousands of slaves were brought to America from this Western Africa

during the days of the traffic, beginning nearly four hundred years ago." The author also shares: "How much more of Judaism survived among West African Negroes in that earlier time? As persecuted communities, they were rather more in danger than other Negroes of being raided by war parties and sold as slaves. ***It may be considered certain that many partially Judaized Negroes were among the slaves in America.*** How many of them might still hold some Jewish customs in their new is another question."

**Dbrym/Deuteronomy 28:16** "Cursed are you in the city, and cursed are you in the field.

Among men, blacks (28.5%) are about six times more likely than whites (4.4%) to be admitted to prison during their life. Among women, 3.6% of blacks and 0.5% of whites will enter prison at least once. (U.S. Department of Justice)  
Based on current rates of incarceration, an estimated 7.9% of black males compared to 0.7% of white males will enter State of Federal prison by the time they are age 20 and 21.4% of black males versus 1.4% of white males will be incarcerated by age 30. (U.S. Department of Justice)  
Some have noted that more black men are in prison in America than are in college. (The Black and White of Justice, Freedom Magazine, Volume 128)

**Dbrym/Deuteronomy 28:17** "Cursed is your basket and your kneading bowl.

African Americans have 2.4 times the infant mortality rate as non-Hispanic whites. They are four times as likely to die as infants due to complications related to low birth weight as compared to non-Hispanic white infants.

African Americans had 1.9 times the sudden infant death syndrome mortality rate as non-Hispanic whites, in 2007.

African American mothers were 2.3 times more likely than non-Hispanic white mothers to begin prenatal care in the 3<sup>rd</sup> trimester, or not receive prenatal care at all. The infant mortality rate for African American mothers with over 13 years of education was almost three times that of Non-Hispanic White mothers in 2005.

Jones. “Now young black men between 16 and 24 years have become the banner of hopelessness, particularly here in New York City.” (tnj.com)</p> <p>2003 average weekly income was 28.8% less for Black males and 15.5% less for Black females compared to their White counterparts</p> <p>The Bureau of Justice Statistics report also shows that those who are killed by police are primarily young Black and Latino men. More than half of the victims were Black or Latino, even though Black and Latino people make up only 27% of the U.S. population. Over 50% of those killed were under 35 years old. And almost half of those killed—by the cops’ own admission—were not committing a violent offense.</p> <p>It should be noted that these official statistics, as outrageous as they are, may still underestimate the number of people murdered by law enforcement forces. This list does not include any killings by federal law enforcement, such as the FBI or Department of Homeland Security. It does not include immigrants killed by the border police. It does not include many people killed during police car chases. And it does not include people killed by the police or prison officials after they are booked for a crime and while they are in jail or prison. (rwor.org)</p> |

Indeed, on this measure, unaffiliated African-Americans more closely resemble the overall population of Catholics (56% say religion is very important) and mainline Protestants (52%). Additionally, several measures illustrate the distinctiveness of the black community when it comes to religious practices and beliefs. More than half of African-Americans (53%) report attending religious services at least once a week, more than three-in-four (76%) say they pray on at least a daily basis and nearly nine-in-ten (88%) indicate they are absolutely certain that G-d exists. On each of these measures, African-Americans stand out as the most religiously committed racial or ethnic group in the nation. Even those African-Americans who are unaffiliated with any religious group pray nearly as often as the overall population of mainline Protestants (48% of unaffiliated African-Americans pray daily vs. 53% of all mainline Protestants). And unaffiliated African-Americans are about as likely to believe in G-d with absolute certainty (70%) as are mainline Protestants (73%) and Catholics (72%) overall.</p> |

However, that may not be the case for most people and blacks in particular. The same indicators and news showed that the black unemployment rate rose to 15.5 percent from 15.3 percent while the overall rate dropped to its lowest level in two years. No matter where one looks in America, the unemployment situation across the country for blacks in some areas is more like a depression.</p> <p>According to a study conducted by the Pew Research Center, from 2005 to 2009, the median net worth of black households fell by a brutal 53 percent, from an already low figure of \$12,124 to \$5,677. The same report demonstrated that in 2005, the average net worth for white households was \$134,992 compared to \$12,124 for black households and that in 2009, the number dropped to \$113,149</p> |

On a Sunday morning just before dawn, two carloads of white teenagers drove to Jackson, Mississippi, on what the county district attorney says was a mission of hate, to find and hurt a black person. In a parking lot they found what they were looking for. James Craig Anderson, a 49 year old black man and auto plant worker, was standing near his car. According to witnesses, the teens repeatedly beat Anderson and then climbed into their large Ford F250 pickup truck, flooded the gas and drove the truck over Anderson, killing him instantly.

Portland police officers get a call to check on a suicidal and armed man at an apartment complex. Aaron Campbell, 25, comes out of the apartment walking backward toward police with his hands over his head. The Oregonian reports that police say Campbell ignored their orders to put his hands up. At which point one officer fired six bean bag shots at his back. Witnesses say they saw Campbell reach his arm around his back, where the beanbag struck him. Officer Ronald Frashour says he saw Campbell reach both hands around his waistband to get a gun, and so he shot Campbell in the back with an assault rifle. "We feel that his death resulted from flawed police policies, incomplete or inappropriate training, incomplete communication and other issues with the police effort," a jury wrote after charging the police with no criminal wrong doing.

After hearing a loud sound, Los Angeles police officers Allan Corrales and George Diego turn their marked car around and see Steven Eugene Washington, 27, walking down the street while looking around and touching something near his waist. The officers say something to Washington. He then approaches them while seemingly removing something from his waistband. Thinking Washington is armed, they fire. One bullet strikes Washington in the head, killing him. Soon afterward, his family announced that Washington was autistic, had learning disabilities, and was generally afraid of strangers. That officer, Gahiji Tshamba, was indicted for murder and faces a maximum life in prison charge if convicted. His attorney had argued that Tshamba "did what he had to do."</p> <p><b><u>1/1/2009</u></b><br/> On New Year's morning, three Bay Area Rapid Transit officers pull 22-year-old Oscar Grant and four other black men off a train in Oakland. In it, now former-transit officer Mehserle can be seen shooting Grant in the back. During the trial, Mehserle argued that he thought Grant was reaching for a gun near his waistband. Mehserle was given a five-years max sentence, with a chance of added time, is especially confusing considering that last year a California man convicted of growing marijuana was sentenced to a minimum of 10 years in federal prison. top this from happening, Mehserle said he intended to Tase him, but shot him with a pistol instead.</p> <p><b><u>3/13/2009</u></b><br/> On the last afternoon of his life, Bernard Monroe was hosting a cookout for family and friends in front of his dilapidated home on Adams Street in Homer, Louisiana. Throat cancer had robbed the 73 year-old retired electrical worker of his voice years ago, but was enjoying his grandchildren and great-grandchildren. Then the Homer, La. police showed up, two white officers whose arrival caused the participants at the black family gathering to quickly fall silent. Within moments, Monroe lay dead, shot by one of the officers as his family looked on. Now the Louisiana State Police, FBI and U.S. Justice Department are swarming over this impoverished lumber town of 3,800, drawn by the allegations of numerous witnesses that police killed an unarmed, elderly black man without justification—and then moved a gun to make it look like the man had been holding it.</p> |

Of these, only two percent never ate out and the remaining respondents dined out two or more times per week and ate significantly fewer daily servings of fruits and vegetables than those eating out less frequently (2.7 vs. 3.3 servings, <math>p&lt;.001</math>). These frequent diners tended not to meet the daily recommended number of fruit and vegetable servings (13 percent vs. 21 percent, <math>p&lt;.05</math>). Evidence suggests that “African Americans” suffer increasing health disparities in the incidence, prevalence, mortality, and burden of diseases and adverse outcomes in comparison to other populations. They have greater rates of heart disease, diabetes, cancer, stroke, and obesity. In 1999–2002, 50 percent of non-Hispanic black women were obese compared with nearly one-third of non-Hispanic white women. The prevalence of obesity among men differed little by race and ethnicity (28–29 percent).

Overall mortality was 30 percent higher for Black Americans than for White Americans in 2003, and age-adjusted death rates for the Black population exceeded those for the white population by 43 percent for stroke, 31 percent for heart disease, 23 percent for cancer, and almost 750 percent for HIV disease. (*Chapter 17: Health and Dietary Issues Affecting African Americans California Food Guide Health and Dietary Issues Affecting African Americans By Linda L. Cowling, M.P.H., R.D.*)

#### **Cancer**

African Americans have the highest mortality rate of any racial and ethnic group for all cancers combined and for most major cancers. Death rates for all major causes of death are higher for African Americans than for whites, contributing to a lower life expectancy for both African American men and African American women.

#### **Lymphocytic leukemia**

A new analysis has found that among patients with chronic lymphocytic [leukemia](#), African Americans more commonly present with advanced disease, and they tend to have shorter survival times than Caucasians despite receiving the same care.

#### **The cancer industry preys upon black America**

Over 100,000 Americans are killed each year by prescription drugs. Hundreds of thousands more are [killed by the cancer industry](#) and its toxic treatments such as chemotherapy and radiotherapy. **Black people are far more likely to die from cancer treatments than white people** due to chronic vitamin D deficiencies.

#### **Diabetes**

African Americans are twice as likely to be diagnosed with diabetes as non-Hispanic whites. In addition, they are more likely to suffer complications from diabetes, such as end-stage renal disease and lower extremity amputations. Although African Americans have the same or lower rate of high cholesterol as their non-Hispanic white counterparts, they are more likely to have high blood pressure.

### **Heart Disease**

Although African American adults are 40% more likely to have high blood pressure, they are 10% less likely than their non-Hispanic White counterparts to have their blood pressure under control.

In 2008, African Americans were 30% more likely to die from heart disease, as compared to non-Hispanic white men.

African American women are 1.6 times as likely as non-Hispanic whites to have high blood pressure.

### **HIV/AIDS**

Although African Americans are only 13% of the U.S. population, they account for 48% of HIV/AIDS cases in 2008.

African American males have 8 times the AIDS rate as white males.

African American females have 20 times the AIDS rate as white females.

African American men are almost 10 times as likely to die from HIV/AIDS as Non-Hispanic White men.

African American women are over 20 times as likely to die from HIV/AIDS as Non-Hispanic White women.

African American children are twice as likely to be diagnosed with HIV infection, as compared to the White children.

In 2009, African Americans were 9 times more likely to be diagnosed with HIV infection, as compared to the White population.

### **Infant Mortality**

African Americans have 2.4 times the infant mortality rate as non-Hispanic whites. They are four times as likely to die as infants

due to complications related to low birth weight as compared to non-Hispanic white infants.

African Americans had 1.9 times the sudden infant death syndrome mortality rate as non-Hispanic whites, in 2007.

African American mothers were 2.3 times more likely than non-Hispanic white mothers to begin prenatal care in the 3<sup>rd</sup> trimester, or not receive prenatal care at all.

The infant mortality rate for African American mothers with over 13 years of education was almost three times that of Non-Hispanic White mothers in 2005.

### **Stroke and African Americans**

African American adults are 60 percent more likely to have a stroke than their White adult counterparts.

Further, men are 60% more likely to die from a stroke than their White adult counterparts. Analysis from a CDC health interview survey also reveals that African American stroke survivors are more likely to become disabled and have difficulty with activities of daily living than their

The drop puzzled economists, who cautioned that it's too early to say that a job market recovery for blacks is underway. The <a href="#">rate for African-Americans</a> didn't budge at all in 2011, ending the year at 15.8%. The overall unemployment rate fell nearly a percentage point last year. But even at 13.6% for January, the unemployment rate for blacks is still far higher than the rate for other racial and ethnic groups, as well as the nation as a whole.</p> |

There is a reason why these statistics are valuable, and it is because they show the confirmation of His Word and show the identity of His people today in a way that only He could have made possible. He made it clear that these curses would be upon His people forever [Dabarym/Deut. 28:45-48]. He ‘*scattered*’ [H6327 פִּירַץ - to scatter, be dispersed, banished, etc. synonymous terms: *throw, strew, toss, fling, shatter, to dash to pieces*] His people by way of ships [H590- אֵי - *fleet of ships, galley, navy (of ships)*] – Dabarym/Deut. 28:68] and this event at the scale in which it happened to His people has not happened to any other people...

He has confirmed His Word pronounced against them thousands of years ago, but yet they still have a latter end if they would turn back to Him.
